PROFESSIONAL SUMMARY

Computer Science & Engineering graduate and aspiring Tableau Developer and Data Analyst with hands-on experience building Tableau dashboards and Power BI data models, writing SQL (joins, CTEs, window functions, views) across MySQL projects, and cleaning large datasets (76,000+ and 148,000+ rows) in Excel Power Query. HackerRank SQL (Advanced) certified; currently completing an Advanced Certificate in GenAI-Powered Data Science with Python, delivering accurate, data-driven reporting.

TECHNICAL SKILLS

- Data Visualization: Tableau (dashboards, calculated fields), Power BI (data modeling, DAX measures).
- SQL: MySQL; joins, subqueries, CTEs, window functions, views, stored procedures, query optimization (EXPLAIN).
- Programming Languages: Python, SQL.
- Advanced Excel: Pivot Tables, XLOOKUP/VLOOKUP, Power Query, data validation, conditional formatting.
- Tools & Databases: MySQL, Jupyter Notebook, Git, GitHub.

DATA ANALYTICS PROJECTS

Retail Inventory Forecast Dashboard – Supply Chain Analytics (Excel Power Query, Tableau)

- Cleaned and validated a 76,001-row retail dataset in Power Query, forecast SKU-level demand across 5 stores and 20 SKUs, and built Tableau calculated fields and an inventory-risk classification that flags stockout/overstock risk and recommends reorder, transfer or hold. [View: https://github.com/JEISAMATHEW/Retail-inventory-forecast-dashboard]

Uber Ride Bookings – Operations Data Analysis Dashboard (Tableau, Excel)

- Cleaned 150,000 raw rows to 148,767 records, geocoded locations, and built a multi-tab Tableau dashboard on bookings, vehicle mix, cancellations, revenue and ratings. [View: https://github.com/JEISAMATHEW/Uber-Data-Analysis-Tableau-Dashboard]

Myntra E-commerce – SQL Analysis (MySQL)

- Built a Myntra-inspired e-commerce database; wrote 17 query sections on sales, profitability and KPIs using joins, CTEs, window functions, views and stored procedures. [View: https://github.com/JEISAMATHEW/Myntra-Ecommerce-SQL-Analysis]

QuickBite Food Delivery – SQL Analysis (MySQL)

- Designed a food-delivery database and answered 20 business questions on revenue trends, restaurant profitability, delivery-partner performance and customer behavior using joins, CTEs, window functions and reusable views; used EXPLAIN for query optimization. [View: https://github.com/JEISAMATHEW/QuickBite-Food-Delivery-SQL-Analysis]

Greenfield High School – Data Modeling & KPI Dashboard (Power BI)

- Modeled 4 related tables (students, marks, attendance, fees) with DAX measures and calculated tables for a KPI dashboard on academic and fee performance. [View: https://github.com/JEISAMATHEW/Greenfield-School-PowerBI-Dashboard]

RetailNow - From Messy Data to Business Decisions (Microsoft Excel, Generative AI)

- Cleaned a 415-row retail sales export (outliers, clean lookups) and used Generative AI with dynamic pivot tables and charts to build a board-ready business insights report. [View: https://github.com/JEISAMATHEW/RetailNow-GenAI-Sales-Case-Study]

EDUCATION

- **Jain College of Engineering and Technology, Hubli (VTU):** B.E. in Computer Science | 2022 | CGPA: 7.37/10
- **Prerana PU College, Hubli (Karnataka State Board):** 12th | 2018 | Percentage: 83.33%
- **Kendriya Vidyalaya No. 2, Hubli (CBSE Board):** 10th | 2016 | CGPA: 9.2/10

CAREER TIMELINE

AI & Data Science Intern — Tech Cubic Innovations Pvt. Ltd | *4-Week Technical Internship* | *Aug 2022*

- Collaborated on exploratory data analysis and foundational machine learning scripts; built a Tableau Public stock-trend dashboard and Python (Tkinter) prediction apps.

Exam Preparation | 2022 – Feb 2025 — Government exam preparation; built foundational technical skills.

Infosys Limited — System Engineer Trainee | Mar 2025 – Aug 2025

- Completed structured training in Java, OOP and Database Management Systems (SQL, joins, normalization), plus data structures and algorithms, through coding exercises and hands-on assessments.

Exam Preparation | Sept 2025 – Mar 2026 — Continued government exam preparation; cleared the preliminary stage.

Tech Mahindra — Associate-Customer Support, Band U1 | May 2026 – Jul 2026

- Resolved customer queries on inbound Malayalam calls and escalated cases to the escalation team per process, within response time and service-quality standards.

CERTIFICATIONS & TECHNICAL TRAINING

Advanced Certificate in Gen AI-Powered Data Science and AI-ML — upGrad Offline Learning Centre | *6-Month Certification Course & Technical Internship* | *Aug 2026 – Jan 2027 (Expected)*

- Completed: Excel & GenAI Analytics, Power BI & Tableau (ETL, data modeling, DAX), SQL with Azure cloud integration. In progress: Python (NumPy, Pandas). Upcoming: Statistics, AI & ML. Add-on certification from IIIT-Bangalore; NSDC certificate.
- SQL: HackerRank SQL (Advanced, Oct 2026), SQL (Intermediate), SQL (Basic); LeetCode Data Navigator Badge (MySQL).
- Tableau & Python: upGrad Data Visualisation with Tableau (Jul 2026); HackerRank Python (Basic) (Nov 2026).

PROFESSIONAL MEMBERSHIPS & LANGUAGES

- Member, Computer Society of India (CSI) | Languages: English, Hindi, Malayalam.
